

How to Make the Animal Dice

Materials:

- Box
- Construction Paper
- Animal Dice Printouts (cut)
- Glue
- Tape

Step #1: Get a Box

Note: Picture shows a 5x5x5 in. box, but it can be bigger.

Step #2: Cover box with construction paper

Note: It is ok to have a hole in the middle if you "wrap it" like you would a present. You will cover it up later. Another method is to cut out and glue square sheets of construction paper to the exact size of each side so there is no hole at all.

Step #3: Glue animal dice pictures on each side

Step #4: Tape the edges of the box and images

Note: You can tape each side completely for additional protection if you like. Clear tape is recommended.

Done!
