

The Little Mice Are Creeping

Fingerplay

The little mice are creeping, creeping, creeping.
The little mice are creeping through the house.

The little mice are sleeping, sleeping, sleeping.
The little mice are sleeping through the house.

The old gray cat comes creeping, creeping, creeping.
The old gray cat comes creeping through the house.
And the little mice run away.

(One hand represents the mice, the other hand the cat. One hand creeps, while the other comes slowly down from the air. Hands meet and one scampers behind the child's back.)
