

Five Yellow Bananas

Fingerplay

One yellow banana in the jungle grew,
(hold up one finger)

Out popped another, and that made two.
(hold up two fingers)

Two yellow bananas were all that I could see;
But Bill found another, and that made three.
(hold up three fingers)

Three yellow bananas – if I could find one more,
I'd pick them, and that would make four.
(hold up four fingers)

Four yellow bananas –
sure as you're alive!
Why here is another!
And now there are five!
(hold up five fingers)
